El Cargo por Combustible es un porcentaje del precio del servicio contratado y, en su caso, del sobrepeso que pudiese generar.
El porcentaje se determina de acuerdo al precio publicado de los combustibles tanto nacionales como internacionales.
Para los Servicios Nacionales Aéreos se toma el precio de la turbosina expresado en pesos por litro y publicado por Petróleos Mexicanos (PEMEX) en http://www.pemex.-com/ri/Publicaciones/Paginas/IndicadoresPetroleros.aspx en el enlace “Precio al público de productos petrolíferos” en la información obtenida bajo la columna: ‘Turbosina’.
Para los Servicios Nacionales Terrestres se toma el precio del diesel expresado en pesos por litro y publicado por la Comisión Reguladora de Energía en http://www.gob.mx/-cre/articulos/precios-vigentes-de-gasolinas-y-diesel y tomando la información que se descarga de “Precios Diarios Promedio Nacional y Precios Promedio Mensuales por Entidad” de la pestaña llamada: 'Cuadro 1.4', en el renglón denominado Nacional.
Para el Servicio Global Exprés se toma el precio del Kerosene-Type Jet Fuel (Región US Gulf Coast) expresado en dólares americanos por galón y publicado por US Energy Information Administration en https://www.eia.gov/dnav/pet/pet_pri_spt_s1_m .htm
Para el Servicio USA Económico se toma el precio del Ultra-Low-Sulfur No. 2 Diesel Fuel (Región US Gulf Coast) expresado en dólares americanos por galón y publicado por US Energy Information Administration en https://www.eia.gov/ dnav/pet/pet_pri_spt_s1_m.htm
En todos los casos, se toma el precio publicado una semana antes de la entrada en vigor de los porcentajes.
